

Fleet Policy WORKSHOP

Crafting Comprehensive Policies for Fleet Management

NAFA's Fleet Policy Workshop empowers fleet professionals of all levels with comprehensive fundamentals and best practices in developing, auditing, and assessing fleet management policies. As fleets are impacted by regulatory updates, new technologies, corporate sustainability goals, and operational cost minimization, your fleet policies need to adapt and evolve. Are you prepared?

FEBRUARY 23-25, 2026
VIRTUAL SESSIONS

Why You Should Attend

This interactive workshop will provide you with:

- **Insights into Best Practices:** Explore the essentials and strategies of policy writing, needs assessments, and effective driver policies
- **Expert Guidance:** Identify strategies for policy compliance among drivers, managers, and stakeholders, and the critical importance of regular audits and assessments
- **Updates on Regulations:** Understand the unique requirements and regulatory environments of government and corporate/utility fleets and delve into unionized workforce impacts on fleet policy
